

Chicago's Very Own
Project Brotherhood
Executive Director
MARCUS MURRAY

SPEAKS ON A PANEL DISCUSSION AT
WHITE HOUSE

“BLACK MEN HEALTH AND
HIV “

Here's what others had to say about Project Brotherhood:

Moderator Jeff Johnson of B.E.T Question:

“Who has been most affect in the last year in doing that and where can people begin to plug into to be a part of reducing some of these other systemic problems that are affecting HIV/AIDS as well?”

Dr. David Malbranche Assistant Professor Emory University School of Medicine answer:

“If you wanna talk about success's look down at the end of the table at Marcus with Project Brotherhood in Chicago, that's probably a model I think needs to be replicated across the country”.
